

1. I listen to k-love and I know I don't have to worry about vulgar words or content and I can find k-love almost anywhere I travel.
- 2.If it were displaced by LPFM, I would lose my main source of news updates and community updates.
- 3.I believe k-love provides an alternative to what most stations provide and is one of the few stations I dont worry about my kids and their friends listening to, to me this is an invaluable service to the community.
